◆ Situation of this file

In the business meeting held at Massachusetts 2007, US panel proposed us to prepare and submit a file of the contents list of technical reports published from Prefectural Fisheries Research Institutes of Japan in the previous year, in place of the literature exchange we made so far. We officially agreed with that idea and prepared this file as you see here. We would like you to accept this file and utilize this to proceed your research activity.

The paper you want will be supplied by NRIA secretariat
